### *Blastoff!*

Explore and spin this wonderful textured Spaceship. Activate the outer rim anywhere and encounter shooting multicolored lights flashing inside the large frosted dome, exciting music, spaceship sounds, and vibration. The Spaceship spins on a Lazy Susan base. Size: 14 1/2"D x 6"H. Requires 4C Batteries

#### **Operation:**

1. Space Encounter requires 4 C batteries (Not included). Use alkaline batteries only (e.g. Duracell or Energizer brand). Do not use rechargeable batteries or any other type of batteries because they supply lower voltage and the unit will not perform properly. Never mix old and new batteries together or different brands or types together.
2. The battery compartments are located on the bottom of the Space Encounter. To remove the battery compartment cover pull the Velcro attached cover off. Install new batteries, being careful to observe proper (+) & (-) battery polarity. Replace cover.
3. Turn the ON/OFF/VOLUME knob clockwise, you will hear an audible click. Adjust the VOLUME to the desired level. Turn the knob counterclockwise to turn Space Encounters OFF.
4. Press on the lip of the blue base or anywhere else on the Space Encounter and you will experience a shooting multicolored light show which you have never seen before, while hearing exciting up lifting music, spaceship sounds, and feeling the vibration of the space ship motors. The multicolored lights flash all around the inside of the large frosted dome of the ship.
5. Space Encounters is mounted on top of a Lazy Susan so it can be rotated to the left or right.

#### **Important Notes:**

If the Space Encounter is not going to be used for a long period of time, e.g. one month or longer, we recommend removing the batteries from the unit during storage to prevent battery drain or leakage, which can cause damage to the unit.

#### **Troubleshooting:**

**Problem:** Space Encounter does not work.

**Action #1:** Check all batteries for proper (+) & (-) battery polarity.

**Action #2:** Replace all batteries with fresh new batteries. Never mix different brands or old and new batteries.

**Problem:** Space Encounter works intermittently or very slowly.

**Action #1:** Check all batteries for proper (+) & (-) battery polarity.

**Action #2:** Replace all batteries with fresh new batteries. Never mix different brands or old and new batteries.

#### **Care of Unit:**

Space Encounter can be wiped clean with any household multi-purpose cleaner and disinfectant. We recommend Simple Green, which is a non toxic biodegradable all-purpose cleaner.

**Do not submerge** the unit, as it will damage the contents and the electrical components.

**Do not use abrasive cleaners**, as they will scratch the surface of the unit.
