## Stacking Blocks

---

Teaches counting skills while reinforcing fine motor control! These best-selling stacking blocks are great for introducing the wonderful world of addition and subtraction. When you place one of the colorful blocks on the stack, a light will light up. When the stacking task is completed, you are instantly rewarded with sweet music and even more bright lights. Size: 7¾"L x 5¾"W x 13¼"H. Requires 2 AA Batteries. Weight: 1½ lbs.

### Operation:

1. The Stacking Blocks requires two AA batteries. Alkaline batteries are recommended because they last longer. Do not use rechargeable batteries because they supply lower voltage and the unit may not perform as well.
2. The battery case is located at the base of the unit. When installing new batteries, always be careful to observe proper battery polarity.
3. Now you can position the Stacking Blocks either vertically or horizontally depending on the user's needs.
4. The red block is a permanent block. Please do not attempt to remove.
5. Each time you add a block, the two red lights on either side of it will light up.
6. You need to put the blocks on the base in order - starting from the end where the permanent red block

is located. If you put them on out of order, you will not be rewarded with the two red lights.

7. Once you have all of the blocks in place, you will be rewarded with three more bright red lights, as well as a popular musical tune!
8. The lights will remain on and the music will continue playing while the blocks remain in place. Once you remove the blocks to start over, the lights will go out and the music will stop.

### Troubleshooting:

**Problem:** Music does not activate or becomes distorted.

**Action:** Replace batteries and/or check for proper battery polarity.

**Problem:** Lights do not turn on or become dull.

**Action:** Replace batteries and/or check for proper battery polarity.

**Problem:** Only one (or some) of the lights do not turn on.

**Action:** Replace batteries and/or check for proper battery polarity. If no success, call our Returns Department to set up a repair.

### Care of Unit:

The Stacking Blocks can be wiped clean with any household multi-purpose cleaner and disinfectant.

**Do not submerge** the unit, as it will damage the electrical components.

**Do not use abrasive cleaners**, as they will scratch the surface of the unit.
