on the cover:

Our cover photo was sent to us by a customer whose son adores his Textured Carousel Busy Box (#2241, pg. 61). Little Jonathan B. was introduced to the activity center through his early intervention program. He particularly liked the music, so his mom asked if we could make sure the one they were buying had his favorite songs—"She'll Be Coming 'Round the Mountain" and "Old MacDonald's Farm." Many thanks to mom and dad for reaching out and allowing us to share his joy with all our customers. If you have a story to share about your loved one and their favorite Enabling Devices product, let us know! Maybe your loved one will be on the cover next time!

Share your favorite product stories and recommendations on our Facebook page and you might just find yourself in our catalog!

Look for these symbols to quickly reference product information.

Dear Enabling Devices Community:

One day, many years ago, while my father was working on the prototypes for Enabling Devices he looked out his window and saw a woman slowly making her way down the street. Never a particularly shy man, he rushed outside to speak with her.

"How," he asked, "is that cane working for you?" "Not very well," she answered.

"I didn't think so," he replied, gently leading her into his small shop.

Within a few hours he'd made another cane for her, this one with a mechanical joint and much better suited to her needs.

The jointed cane is not in our catalog and he never made another, but it perfectly sums up my father's mission and the mission of this company.

If we can make one device for one person that enriches their life in any way, we will do it.

Just this past week, Vinny Livoti, our tech specialist, received a call from a woman who has a son with special needs. She wanted to purchase our Small Talk and Grip and Puff Switch, but didn't want to add another mounting arm to a wheelchair that was already cluttered with equipment. Vinny immediately took the problem to Bill Pedersen, our lead designer. By the end of the day, Bill had designed a simple mount that snapped the device directly to the arm of the wheelchair. A few days later, the finished pieces were sent out.

That same week another mother called. Her son was trying out our Textured Carousel Busy Box at his early intervention program and she wanted to buy one for their home. Two of the textured pads played songs he loves—"She'll Be Coming 'Round the Mountain" and "Old MacDonald's Farm" and she wanted to make sure the one we sent had his favorites. Also, he didn't like the buzzer noise that one pad played and she wondered if that could be changed. We told her we'd make sure her son's favorite songs were on the toy, and we swapped in the Sesame Street song to take the place of the buzzer. He's the red-headed boy on our cover. When I saw his picture I couldn't stop looking at it. His joy says it all.

In the past two years, Enabling Devices has been evolving, redesigning products and moving to 3D printing. At the center of these changes is you—the customer. The most sophisticated designs in the world don't help if they don't help you.

So please reach out to us. Tell us what we can do better. Tell us what we've missed. Let us know what you can't find. Tell us about your sons and daughters, your students, your family and friends. Tell us what they need; and, if you have the time, please let us know if what we've designed has helped you. That was our mission from the beginning and we are grateful that you continue to allow us to be part of your story.

Best.

Seth Kanor, CEO

🛞 stretch your budget with kits & bundles

Classroom kits are a fast and easy way to outfit your special needs classroom with a variety of products to suit different students. Our Classroom Communication Kits, for example, contain low- and mid-tech AAC devices including Go! Boards, Talkables, Put-Em-Arounds and sequencers. The Classroom Switch Kit (page 8) has nine different switches to accommodate a range of needs. There's even an Autism Spectrum Disorder Kit (page 8) with products to assist with communication, organizational skills, and sensory input. The Adapted Music Kit (page 7) is designed for both music teachers, music therapists, and general therapy use. And there is a specially designed Kit for the Visually Impaired (page 9).

#756 Bongo Drums

Adapted Play Kit 🕕 🚯 🐵

Teachers and therapists recognize that play is essential to child development and well-being. All nine of the best-selling adapted toys in this classroom kit teach important skills such as fine motor coordination and cause and effect while they also provide auditory, visual, and tactile sensory experiences. A must-have for every classroom of students with special needs. Weight: 26 lbs. Kit includes:

🛞 start the conversation with AAC devices

#2401 Talkable 3

Communication devices, also called Augmentative and Alternative Communication (AAC) devices, are used to communicate without using verbal speech. In addition to unaided communication, such as facial expressions and gestures, these tools can help people with communication disorders interact with others and improve their language skills.

With intuitive AAC buttons and devices, individuals with disabilities can navigate complex communication requirements and express themselves more easily. At Enabling Devices, we're committed to providing the solutions children and adults with special needs require to engage with the world in new ways. You can trust us to partner with you and provide unique options to enrich the lives of individuals with disabilities and those who work with them.

Go! Board w/8 Icon Holders 🐵

Lunch time? Circle time? Nap time? Help students stay on schedule with space for eight picture symbols. 🛞 music, television, and internet access for all

Electronics are a big part of many people's daily lives. Music, television and the Internet provide entertainment, information and education to children and adults alike.

Adaptive technologies enable independent use of electronics through switch-activated controls. These devices can be operated in conjunction with the accessibility features already found on many electronics.

Enabling Devices offers a range of products that will allow you to enjoy music, television and computers easily. If you're living with a disability or medical condition that prevents you from using electronic devices, or if you have a loved one requiring some help, browse our selection to find solutions engineered for your needs.

#393 CD Boom Box

CD Boom Box 📵 🤤

This switch-adapted boom box has a CD player, AM/FM radio and a cassette player all in one unit! Simply plug your capability switch into the radio/cassette jack to play music, or plug your switch into the CD jack to activate your favorite CD. The radio, cassette, and CD function start and stop/pauses with each switch activation. The CD function will not work with a latch/timer. Size: 12"L x 9"W x 5½"H. Requires 8 C Batteries. Weight: 4 lbs.

NOTE: AC line cord has been removed for safety reasons.

Item#	Description	Price

🛞 switches and styluses for iPads

#1164 iPad Wireless Switch

iPads are designed to help users create, communicate, learn and play. These ubiquitous tablets are as powerful as a computer and come with accessibility features such as Assistive Touch, Guided Access and other customization options and features.

But for people with mobility problems, vision impairment and other conditions, the slim design of iPads, as well as their touchscreens, can make accessing apps a challenge. Adaptive devices from Enabling Devices can help.

Our products for iPads include systems for mounting the tablets to wheelchairs and other surfaces (pg. 30), as well as switches for activating apps. Accessories for those who live with mobility and vision impairment also include styluses that make it easier to draw and write with the iPad.

iPad Wireless Switch Interface 🗘

There's a switch interface for that app! Just connect the switch and access hundreds of compatible apps. Works through Bluetooth 4.0 for simple pairing and has a range of over 50 feet. Their only problem? So many apps, so little time! Size: $2\frac{1}{4}$ "W x $2\frac{3}{4}$ "L x $\frac{1}{2}$ "H. Weight: $\frac{1}{2}$ lb.

🛞 mount your devices exactly where you need them

Nicholas L. with his custom camera mount

Mounts are an extra set of hands for individuals with mobility issues and other disabilities that can affect grip and movement. They hold switches, devices, phones and other needed items securely without causing discomfort or fatigue. By securing items to a tabletop or chair, mounts also ensure fewer dropped items and easier organization.

There are different types of mounts to help grip lighter and more delicate items, such as an iPad, as well as mounts designed to hold multiple items or even heavy devices. This diversity allows the user to focus on using the wheelchair without also having to worry about holding on to an item. Some mounts also have adjustable arms, helping wheelchair users move a phone or tablet for easy use.

For assistance choosing the right mounting system, or call our product specialists at 1-800-832-8697.

Light Duty Magic Arm System 😣

Sleek and modern looking, this ergonomically designed, flexible system has a single articulated extendable arm (14"L to 24"L) with two sections and a heavy-duty clamp. Mounts securely to any wheelchair, table or bedrail and holds up to 3.3 lbs. Two mounting plates (#1569) are available separately online. Weight: 2¼ lbs.

Choosing a Mounting System

Which Mounting System is right for your needs? Our mounting systems have different weight limits, ranges of motion and attachment methods to cover most uses. All of our mounts attach to a wheelchair, tabletop, bedrail or tray.

To hold lightweight objects, consider the Gooseneck Mounting System (#1550) or the Light Duty Magic Arm System (#1557).

For a complete comparison chart of all our mounting systems, visit our website at https://enablingdevices.com/comparisoncharts/

🔅 sensory products for large and small spaces

Sensory products help people with sensory processing disorder or sensitivities engage their touch, smell, sight, taste, hearing, movement and balance. They enhance the brain's development while helping the person relax, remain calm and overcome fears in a warm and natural environment at home or school.

At Enabling Devices, we offer trusted products that can benefit children and adults with sensory needs. As leaders in the assistive devices field, we've been committed to creating vibrant solutions for children with disabilities for more than 40 years. Our goal is to create products that engage the imagination, build cognitive and motor skills, and help kids and adults become comfortable with new sensations. We offer free sensory room design services, too. Whatever your budget, we'll put together a sensory space that meets your needs. Visit us online at enablingdevices.com and click Services to learn more, or call us at 1-800-832-8697.

Activity Wall Panels

These solid wooden wall panels are a fun and engaging element of any play room, classroom, or therapy center. Choose from three lively animals or get all three! The Frog features an abacus with five rows of 10 brightly colored beads, ideal for building motor skills, counting and learning colors. The Horse has three different activities: moving beads on a wire maze, a launch lever, and a four-cog system for developing hand-eye coordination and motor skills. The Zebra features eight geometric shapes and colored, circular cut-outs that fit neatly over them to teach shapes and colors and to improve motor skills. All three come with pre-drilled fixing holes and screws. Frog size: 21³/₄"L x 14¹/₄"W x 1³/₄"H. Horse size: 22¹/₄"L x 14³/₄"W x 2"H. Zebra size: 221/4"L x 143/4"W x 11/2"H. Weight: 7 lbs.

🛞 we've got a switch for every need

#725 Multi-Sensory Center

Switches are the gateway to independence for people with special needs. They allow the user to activate a myriad of switch adapted devices, including toys, electronics, appliances and more. Enabling Devices' switches come in various colors, shapes and sizes to suit different needs.

When choosing a switch, consider the following:

- How sensitive does the switch need to be?
- How large an activation surface is needed?
- Does the user need an auditory, visual or tactile cue that the switch has been activated?
- Which body part will the person be using to activate the switch?
- Does the switch need to be mounted?

We have a handy guide to choosing the right switch for your needs online. Visit enablingdevices.com/comparison-charts/ to view or download the Capability Switches Comparison Chart.

Mini-Gumball Switches 🤒

A smaller version of our best-selling Gumball Switches, the "minis" share the same incomparable tactile and auditory feedback, versatility and durability as their big siblings, but their smaller size means they can be mounted almost anywhere. Their bases have three holes for easy mounting and a removable mounting plate. Size: 2" Base x $\frac{1}{2}$ "H. Weight: 1 oz.

🔅 choose from more than 100 toys that teach and entertain

Jonathan B. with his favorite toy, #2241 Textured **Carousel Busy Box**

Our company was founded on the premise that all children should have toys that are accessible, educational and just plain fun! We have a large selection of toys and games that help parents, teachers and therapists build motor and cognitive skills in individuals with disabilities.

Many of our toys can be used to achieve multiple goals. For example, the Sensational Textured Activity Center (#2251, pg. 59), is bursting with textures, sights and sounds that can address more than a dozen therapeutic learning goals. Its mirrors, fans, music, songs, lights, and sound effects increase visual attention and tracking; encourage reaching, swiping and grasping; increase auditory development, and more.

Our Skills Development Chart online will help you choose the right toys and games based on the individual learning goals. You can view or download it at enablingdevices. com/activity-guides-product-tips/ or call us for personal assistance at 1-800-832-8697.

Lighted Musical Tambourine 🜔 🕕 😝 🐵

They'll jingle and jangle their way to sensory satisfaction with this musical instrument that doubles as a capability switch. Swipe or gently push the tambourine to feel vibration, see multicolored lights flash and hear music play. Lights, music and vibration can be turned on or off individually. Size: 101/2"L x 101/2"W x 8"H. Requires 7 AA Batteries. Weight: 13/4 lbs.

NOTE: Not to be used with seizure prone individuals. Music may vary.

improved design!	

Ring Around Bells 🜔 🕦 😝 📖

So many choices! Using the integrated yellow switch, users make its colorful, precision-tuned bells twirl and play the musical scale while its multicolored LEDs blink. Or use a separate capability switch to activate a toy or twirl the toy's bells by hand. Ring Around Bells encourages listening, grasping and increases eye-hand coordination. Size: 12"L x 14"W x 10"H. Requires 4 C Batteries. Weight: 41/4 lbs.

🔅 products to help develop ADL skills

#3200 Slant Board

Adaptive training tools help people with disabilities learn and perform activities of daily living (ADLs) by bridging the gap between their abilities and the activity. They make it easier for someone with a disability to practice an ADL so they can apply it to life at home, school and work. We carry products that assist with writing, operating appliances, gardening, cooking, crafting, and dressing.

Our Slant Board (#3200, left) is extremely popular because of its ergonomic design, which encourages proper wrist position and improves posture and stability. Combine with a Weighted Handwriting Glove (below) or a PenPalz Handwring Helper (pg. 79) for new writers. Our Pouring Cups (#20, page 80) are also a bestseller and can be used for both cooking and craft projects.

Weighted Handwriting Glove

Our super-versatile weighted glove provides proprioceptive input and compression that helps students perform a variety of fine motor and self-help activities. Made of soft cotton spandex with a weighted pouch that rests on the back of the hand, the glove can also be worn during hand strengthening exercises. The glove's fingerless design allows for maximum finger flexibility and wrist mobility. Reversible and hand washable. For sizing, measure width at knuckles. Small: 21/2"; Medium: 3"; Large: 31/2". Weight: 1/2 lb.

PenPalz - The Handwriting Helper

Learning to write can be lots of fun with these plush "helpers." An electric strap around the writer's wrist and magnetic paws around the writing implement promote an open thumb web position and a dynamic tripod grasp. The set of three—Shakes the Puppy Dog, Benji the Turtle and Haiku the Panda—comes with three pencils, but can be used for crayons, markers, pens and even paintbrushes. PenPalz can be used for either right- or left-handed writers, and are weighted to help stabilize the hand and add a sensory aspect to the writing experience. Size: 7"L x 7"W x 8"H. Weight: 3½ to 5 grams each.

Our Story

Since 1978, Enabling Devices has been creating and adapting toys, tools, devices and assistive technology for children, teens and adults with a variety of disabilities. From the beginning, the company's primary mission has been meeting the needs of its customers and developing products that enrich their lives. Personalized customer service is emblematic of the company's people-centered approach. As always, we welcome customers' calls and comments, and whenever possible, are happy to provide personalized solutions. With the right tools, people with disabilities are doing great things and finding great joy in their lives. Our mission is to increase their joy as much as possible.

three ways to order

Visit our website at enablingdevices.com

Fill out the form on p. 87 and mail it, fax it to **914.747.3480** or email to **sales@enablingdevices.com**

Call us at 800.832.8697

returns

Π

IMPORTANT INFORMATION TO READ BEFORE CALLING Checking the batteries to make sure that they are fresh and properly installed can prevent 95% of all returns. We recommend alkaline batteries be used. Any of our products that have been switch-adapted will only work with "mono" adapters and will not work with "stereo" adapters. If you are having trouble with a product, please refer to the troubleshooting tips in your user's guide.

RETURN AUTHORIZATION

All items MUST have a Return Authorization Number before being sent back. You can obtain an RA# by going online to enablingdevices.com/return-warranty-policy/ or by calling us at 800-832-8697x6. Please have your invoice number or customer number available as this will help to expedite the return process. To ensure efficient delivery, we suggest you send your return via a trackable method.

refunds/credits

You are entitled to a refund/company credit on most items (except where noted) within 30 days of delivery. Items being returned must be in new condition and unmarked. Any item that has been written on with permanent marker or has stickers/labels on it cannot be returned for a refund, a credit or an exchange. All original packaging, accessories and manuals must be included. Custom/Special orders or final sale items cannot be returned. Items that are non-returnable (these items are noted) can still be repaired. Items being returned in bulk (quantity of 10 or more) have a 20% re-stocking fee.

DAMAGED/DEFECTIVE

Please notify us within 10 days of receipt of any discrepancies, items damaged in shipping and/or faulty items. Free Technical Support is available by phone 800-832-8697 or email customer_support@enablingdevices.com. We may be able to troubleshoot the problem and avoid having the item returned.

PLEASE NOTE: There is a \$35 (domestic) and a \$50 (international) diagnostic fee for each returned item found to be in good working order. Also, customers are responsible for return shipping costs if items are found to be in good working order, were ordered by the customer incorrectly, or if the item is not suitable. All items returned for credit/refund must be shipped to us unmarked and in original packaging.

warranties

For U.S. and Canada purchases, there is a one year warranty on communicators and switches. For all other products there is a 90 day warranty for manufacturing defects unless noted on our website. Items under warranty will be repaired free of charge. There will be a charge for repair and return shipping and handling on all items out of warranty. For international customers, please visit our website www.enablingdevices.com for warranty information. If you have any questions regarding returns, repairs, and warranty information or if you would like a repair fee quote please contact us at 800-832-8697 X6 or email returns@enablingdevices.com. Please note that these time frames and repair fees are as stated and cannot be changed. Repairs, alterations or modifications done by someone other than Enabling Devices will automatically void our warranty.

substitutions

Due to ever changing demands, certain toys may be discontinued by their manufacturer. If a substitution of a similar toy must be made, it will be of equal value. Our products are continually being improved and so the appearance of the product in the photo may slightly differ from what you receive. Please be assured that you will always receive the latest version.
